COMPACT MANUAL BOOT WASHER

Stainless steel manual boot washer for cleaning footwear in the food industry

STAINLESS STEEL

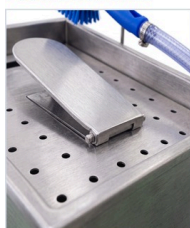

FOOD INDUSTRY

HYGIENE BARRIER

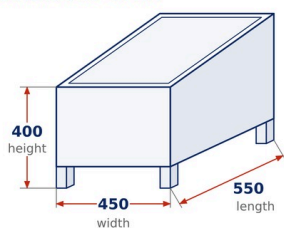

NO ELECTRICAL INSTALLATION

FOOTPLATE DETAIL

DIMENSIONS · IN MM

DESCRIPTION

Compact manual boot washer for cleaning and disinfecting staff footwear using a brush and water with disinfectant. It provides a simple hygiene barrier at the entrances to work areas.

It needs no electrical installation or automatic connection, so it can be placed easily at any point. With a footprint of just 550 × 450 mm and a height of 400 mm, it fits in entrances where an automatic boot washer cannot be installed.

Made of stainless steel, it offers maximum hygiene and durability with low maintenance costs. Reference standard: Regulation (EC) No 852/2004 on the hygiene of foodstuffs.

CONSTRUCTION AND STANDARD EQUIPMENT

- Stainless steel tank and frame, on four legs.
- Perforated top tray with hinged footplate.
- Manual brush with flexible hose.
- Side holder for hanging the brush.
