

TP410i WIDE WEIGHING PALLET TRUCK

Stainless steel weighing pallet truck for American pallets, with IP68 load cells, in printer and CE-M approved versions

WEIGHING PALLET TRUCK

STAINLESS

IP68 LOAD CELLS

AMERICAN PALLET

DESCRIPTION

The TP410i WIDE is a weighing pallet truck made of stainless steel for American pallets: it weighs the pallet while moving it, without going to a floor scale. It has IP68 load cells and nylon wheels with polyurethane tread.

Available with or without a ticket printer, and in a general-use version (200/500 g division) or a CE-M approved legal-for-trade version (500 g / 1 kg), with 1,000/2,000 kg dual-range capacity.

Its stainless finish makes it suitable for cutting rooms, cold stores and washdown areas.

CONSTRUCTION AND STANDARD EQUIPMENT

- Stainless steel structure
- 4 IP68 load cells
- Nylon wheels with polyurethane tread
- Printer and CE-M approved versions

KEY DATA

Capacity	1,000 / 2,000 kg	Division	200/500 g or 500 g/1 kg	Material	Stainless
